INTRODUCTION

Centuriatus PLLC is a full-service certified public accounting and advisory firm offering audit & tax, consulting, financial advisory, and risk management services. Our firm adheres to the highest ethical standards. We believe that reputation and integrity are fundamental qualities of a successful professional. That is why our commitment to sustainable and responsible business practices is unrelenting. Our dedicated professionals have had the privilege to provide exceptional services during their professional careers with the utmost desire to continue the quest to achieve service excellence and contribute to the organizational competitive advantage of our clients.

We provide services primarily in the United States of America, Denmark, and Central and Eastern Europe (CEE). However, we are part of a more extensive global network operating in virtually all markets.

Centuriatus PLLC is an independently owned and operated member firm of CPAConnect, an alliance of CPAmerica, Inc. CPAmerica, an association of independent accounting firms that maintain the highest practice standards, is a member of Crowe Global, providing our firm access to the eighth largest accounting network in the world, with over 200 independent accounting and advisory firms in more than 130 countries. As a client of our firm, you truly receive the best of both worlds: the personal attention and sincere concern of a local firm and the knowledge and resources of an international association.

Here is a snapshot of our services:

Audit & Tax – We engage in audits and reviews of financial statements and reporting on internal controls, compilation, and other attest and non-attest engagements following applicable standards. Our support extends to other non-attest services such as bookkeeping, tax preparation, training, and project management.

Management consulting – Our non-standard problem-solving approach sets us apart from the competition. We provide specifically tailored solutions specializing in the analysis of internal controls gaps such as susceptibility to fraud and internal control ineffectiveness and inefficiencies. Our support also extends to other finance and accounting governance-related activities.

Financial advisory – We perform valuations of business entities, intellectual property, intangible assets, debt, and equity. These due-diligence services are provided in mergers and acquisitions, dispositions, planning and financial reporting, bankruptcy and reorganizations, litigation, and dispute resolutions.

Risk management – We provide flexible and collaborative co-sourcing Internal Audit (IA) services to achieve a robust and well-rounded mixture of expertise on IA engagements. While the client maintains the control and responsibility, we provide advice and best practices insights from the industry, business, or specialized technical areas of expertise. Our risk experts also assist clients in assessing, improving, and implementing risk management programs to complement the IA function activities.

OUR FIRM

MEMBERS OF OUR PRACTICE ARE SEASONED PROFESSIONALS IN THEIR AREAS OF EXPERTISE:

Mike Skorupski, CPA/ABV, CGMA
Managing Director

Mike Skorupski is a passionate risk management professional with over 15 years of experience in the field. He is a certified public accountant (CPA) and a graduate of Walsh College of Accountancy and Business Administration as well as Copenhagen Business School. His expertise concentrates on enterprise risk management frameworks and finance consultancy. He has published articles about pragmatic approaches of collecting organizational intelligence for enterprise risk management and advocating to break down silos by uniting risk management with strategic planning and its proactive approach to sway organizations to identify, prepare for, respond, and manage strategic risks in a non-traditional manner.

- +15 years of experience as a CPA, including several years as a risk/finance director in the business
- Specializing in the Sarbanes-Oxley Act (SOX) and Committee of Sponsoring Organizations of the Treadway Commission (COSO) – Enterprise Risk Management framework
- Certified Public Accountant (CPA)
- Accredited in Business Valuation (ABV)
- Chartered Global Management Accountant (CGMA)
- Master of Business Administration (Executive MBA)
- Bachelor of Accountancy (B. Acc.)
